Brothers After All is an ensemble of incredibly talented musicians from the Treasure Coast of Florida that embraces the essence of and performs the most captivating and authentic tribute to the music of the Allman Brothers Band. Their soulful performances combined with spectacular visual effects magically immerse audiences and fans into the complete Allman Brothers live experience.

Founded by percussionist Mitch Fine (a lifelong Allman Brothers admirer who assembled this powerhouse group after relocating to Florida in 2014), the 7-piece lineup delivers authentic dual-guitar harmonies, extended jams, and the improvisational spirit of the original Allman Brothers Band.

The band features:

Lefty Hathaway (Hammond B3 organ, Keyboards, Gruff rhythmic vocals) - Lefty anchors the sound with influences from Gregg Allman, Leon Russell, and Dr. John.

Pete Quigley (Slide and lead guitar, Backing Vocals) - Masterful slide and leads; has performed with members of the original Allman Brothers Band and brings decades of Southern rock experience.

Dave Lasman (Lead guitar, Vocals) - Captures Dickey Betts' style perfectly; longtime Florida music scene staple with blues/southern rock roots.

Will Keehner (Bass guitar) – Will's soulful grooves are influenced by Berry Oakley, Oteil Burbridge and Jaco Pastorius.

Mike Loschiavo (Drums) – Mike leads the powerful rhythm section. He has a lifetime of professional drumming experience and decades of Southern Florida performances.

Hosny Franck (Drums) – “Hoz” adds dynamic layers of feel and rhythmic drumming as a formally trained and experienced touring drummer with national artists

Mitch Fine (Percussion) – Mitch's energetic and diverse style influenced by Marc Quinones, Nate Werth and Ray Cooper has made him one of Florida's premier percussionists performing at many venues within the southern states.

Regularly packing venues across Florida (Crazy Uncle Mike's, Earl's Hideaway, Terra Fermata, Cage Brewing, The Funky Biscuit and Festivals), Brothers After All is perfect for outdoor stages, pubs, festivals, and special events seeking high-energy southern rock
